

## Digital Radiography Training Training costs & Timetable – 2012

To fulfil ASME/ASNT /EN473/EN4179/ISO9712 guideline

	Course Reference	Course Description	Course Timetable
1.	CIT/Radio. Film Digit.	<b>Radiograph Film Digitisation – and Archiving</b> 3 days ASME/EN473/EN4179/ISO9712 – Level One/Operator (Level II & level III are same as Digital Computed radiography)	On Demand and request
2.	CIT/Digi Rad I	<b>Digital Computed Radiography Training</b> - Level I ASNT /EN473/EN4179/ISO9712 - 5 day Examination costs Certification costs	9th Apr –13th April 2012 6 <sup>th</sup> Aug – 10 <sup>th</sup> Aug 2012 12th Nov. – 16th Nov 2012
3.	CIT/Digi Rad II	<b>Digital Computed Radiography Training</b> - Level II ASNT /EN473/EN4179/ISO9712 - & Administration 3 days- in addition to Level I Examination costs – 1 day Certification costs	On demand and request (minimum 4 candidates)
4.	CIT/Digi Rad II/III	<b>Digital Computed Radiography Interpretation Training</b> - Level III ASNT /EN473/EN4179/ISO9712 2 days in addition to level II & minimum 30 days of digital radiograph experience Certification costs	On demand and request (minimum 3 candidates)
5.	CIT/Flaw Depth	<b>Flaw Depth; Material Loss; &amp; Profile Radiography using Digital Radiography – 2 days</b> For trained Digital Radiographers Level II and III	On Demand
6.	CIT/Cor.Cond	<b>Corrosion &amp; Conditioning</b> Material Loss basic; Profile and Tangential Digital radiography 4 days	On Demand
7.	CIT/Artist	<b>Radiograph mathematical modeller/NDT</b> Inspection planning 2 days	On Demand
8.	Specific Application Areas of Computed Radiography	a) Casting Inspection - 2 days b) Weld Inspection - 2 days c) Aerospace - 2 days Minimum training and experience of Digital radiography	On Demand
9	CIT/CR Phantom	<b>CR Phantom tool for Validating &amp; maintenance</b> QA/QC check for CR Systems WEB Based training – 1 days	On Demand
10	CIT/CRNDT	<b>CIT/DR Viewer &amp; advance image analysis</b> software training for end users/ Level II / Level III Web based training – 1 day	On Demand

**Note:**

- The candidate must be trained and experienced Conventional Radiographer and must be computer literate.
- Level III can only be taken six month after the Level II qualification
- Training courses are conducted in English only
- Training Terms & Conditions applies
-
